

Safety Track®

Issue Date: 1/1/2016 Version 1.2

1. Testing of adhesion to surface should be done before installation.
2. Do not apply Safety Track® when surface temperature is below 50 degrees Fahrenheit.
3. Fill in cracks, seal porous surfaces and repair to a smooth finish, as required. Avoid application to grout areas.
4. Always apply Safety Track® to clean, dry, wax and oil-free surface. Allow ample time for drying.
5. Peel off protective release paper from Safety Track®.
6. Press Safety Track® to prepared surface. Bond is increased by using a rubber hand roller.
7. Safety Track® is ready for immediate use, no need to wait.
8. Keep Safety Track® clean. Use mild floor cleaners as directed.
9. Application to porous surfaces is not recommended.
