

IPRA Aquatics Network ***2023-2024 Meeting Dates***

This season we are going to focus on work-shopping materials, trainings, and documents. Our goal is to have our local aquatic professionals share their successes, documents, trainings, and resources they use during the aquatics season. Each session you will be able to take a few tangible items back to your facilities. Please be ready to share what your facilities or teams do in regard to each topic. We ask that you have documents, PowerPoints, or any other resources you use to share with the group.
