

Marengo Pool

Tour This Project

Iowa Parks and Recreation Association and JEO Consulting Group invite you to tour an ongoing construction project for the Marengo Pool Facility located north of Marengo City Hall. This 1.5 hour tour will be an opportunity to discuss the project with the engineer, contractor, and city to better understand the planning and construction process that occurs when a community decides to proceed with constructing a new pool facility.

We are offering three separate opportunities to view the facility. You can attend all events or any single event. The first event occurred in December, the second event is currently being planned for April 24, 2024 at 10:00 a.m., and there will be a third and final event offered this summer. Please reserve your attendance with the Iowa Park and Recreation Association by scanning the QR code below or contacting Kelly with IAPRA at kelly@ipra.org. Non-members are welcome to attend. Additional communication, including location information will be sent to registered attendees as the event nears.

Proposed Plan

- 1 Water Features
- 2 Play Structure
- 3 Concession Shade and Seating
- 4 Water Slide
- 5 Fabric Shade Shelters
- 6 Basketball Hoops
- 7 Bathhouse
- 8 Volleyball Net
- 9 Dual Climbing Walls
- 10 Aqua Zipline
- 11 1/2 Meter Diving Tower
- 12 Pool Mechanical Area

Project Overview

About the Project

The City of Marengo has enjoyed its public pool since 1975. Over the years, various repairs have been made to the pool, and the public has donated money to keep the facility operating. The summer of 2019 was the last season the facility was open, and significant repairs are required to reopen.

In the fall of 2021, the city hired JEO Consulting Group to address the existing pool and guide a pool committee comprised of citizens, city staff, and city council members to develop a concept plan for the future of the public pool. After reviewing several alternatives and discussing multiple features, the committee selected the illustrated concept shown above and below. In September 2022, the primary funding was secured through a referendum vote that allowed the city to issue \$3.8 million in bonds.
